Want to gain access to someone's Google account? Perfect, you have a digital diary of everything that person has done for the last 10 years. This is one of the craziest things about the modern age. We would never let the government or a corporation put cameras/microphones in our homes or location trackers on us. But we just went ahead and did it ourselves because – well with it! – I want to watch cute dog videos."

Facebook deleters should not think of themselves as protesters so much as innovators. If we are to create a survivable digital society, it must be invented that invention is unlikely to flow from a single company. We cannot create a better tech digital civilisation by continuing to complain to Facebook about its unproductive design. We cannot have regulators trim a beast as if they were barbers and call that change. The act of invention must be distributed."

 ...humanities have participated in bringing much of this decline on ourselves and the country. When life is stripped down to Nothing, triviality, materialism, what else can be expected but the devaluation of everything can't be eaten or monetized... inevitably leading to barbarians like Trump. In, historically speaking, the next stage is collapse into violence and ruin... World Toynbee's magisterial A Study of History traces the trajectory of more than twenty-four civilizations, most of which never recovered. It's not a foregone conclusion that we're going to make it through the appalling decline presented by the current occupant of the White House.

...lized this evening that two of my Facebook friends, Frederick Glaysher and e Margulies, share a remarkable distinction: Each man has written a ary work that is the consummation of his wide reading and deep soul work ed out over decades.

Frederick Glaysher, it is his book The Parliament of Poets: An Epic Poem, ublished in 2012. Fred describes his book this way: "The Parliament of Poets is the Persona on a Journey to the seven continents to learn from all of the tual and wisdom traditions of humankind: On Earth and on the moon, the s teach him a new global, universal vision of life." On his journey, Persona ounters the likes of Homer and Virgil, Dante and Milton, Rumi and Hafez, no and Zeami, Jane Austen and Emily Dickinson, and many other trans- onal poets and sages. The moon in this epic is a symbol of universal wship: "Gazing from the moon, we see one Earth, without borders, Mother n, her embrace encircling one people, humankind."

Hune Margulies, it is his 2017 book: will and grace: meditations on the ological philosophy of martin buber. Writing in his characteristic lower-case s, Hune says that "in these pages i dialogue with thinkers like martin buber, asaheeb ambedkar, mahatma ghandi, fernando Pessoa, j.l. borges, thomas on, rumi, antonio machado and others."

oguing with Buber--Hune's life-long practice--has led him to this insight: is not in heaven nor on earth, god is not above or below, not within and without, not in the soul or in the flesh, god is not an entity anywhere: god is between of an i and a thou."

"True myths may serve for thousands of years as an inexhaustible source of intellectual speculation, religious joy, ethical inquiry, and artistic renewal. The real mystery is not destroyed by reason. The fake one is. You look at it and it vanishes. You look at the Blonde Hero—really look—and he turns into a gerbil. But you look at Apollo, and he looks back at you. The poet Rilke looked at a statue of Apollo about fifty years ago, and Apollo spoke to him. "You must change your life," he said. "When the true myth rises into consciousness, that is always its message. You must change your life."

me, memories of Borders Bookstore in Ann Arbor start at the State Street  
e, at the corner of Liberty, back when I was a student at U of M in the late

books whenever I was in Ann Arbor. I miss Borders, always have, such a  
it went out of business, when it really didn't have to. There were so many  
stores in Ann Arbor, back when I was a student... in that area near the

ingham Borders, since I live in Rochester.

I remember the day I stumbled onto a sample of the not-yet-released Sony  
reader on display in the Ann Arbor Borders... in about 2005 or '06, but I  
couldn't buy it there, even though I was astonished by it and wanted  
mediately to buy one. I believe Borders decided not to carry it.

ers always seemed to me locked into the old declining model. Barnes &  
e offered to buy 2,000 copies of my first book of poems, INTO THE  
NS, so naturally I think better of B&N, but instead I made the mistake of  
aving I should cultivate a relationship with the distributor Baker & Taylor,

...basis of all the ethical systems, first discovered by the thinkers of the I Period in antiquity—by Confucius, Socrates, the Buddha—was the thing that other people, beginning with our family, friends, and country but ending ultimately to the whole of mankind, deserve our help and sympathy. The great moral traditions of the human race teach not merely that we should good to others with the calculation that they will reciprocate, that one hand tches another. They teach the value of selflessness in the Buddhist sense, filial piety and natural sympathy among men taught by the Confucian tion, the Socratic doctrine that it is better to suffer than to do evil. We can should substitute sympathy for self-interest; we can cooperate as well as pete. Cooperation requires trust, understanding, and empathy, and these possible without language study. "

Frederick Glaysher Here's another fine excerpt:

"The sad truth is that politicizing the humanities by critiquing past  
authors has not produced the radicalism that it originally proclaimed.  
The politicized humanities summon the past before today's students  
only to subject it to ritual criticism from the enlightened standpoint of  
the present. Reading old texts in this guise has produced the very  
degeneracy that it set out to challenge. The humanities which  
supposedly served the powerful of the past now, through their critique,  
serve the smugness of the present."

Frederick Glaysher "De-moralizing the humanities—turning them into  
a set of skills, into a training in empathy, into politics by other means, or  
into handmaidens of the natural sciences—is a misguided strategy.  
Their moralizing purpose will always flow back in. The best way to  
disrupt the current pattern of decline in the humanities is to return them  
to their original, now discarded purpose of challenging cultural  
complacency by holding aloft what is best in our civilization."

Unlike the valued book club reviewer, who may be easily challenged by companionable discourse, Amazon's 'customer reviewer' is uncontested and unedited: the customer is always right. And the promoter, the star of this shoddy procedure, controls the number of stars that are awarded or denigrate writers. Amazon's unspoken credo is that anyone, or anyone, is well suited to make literary judgments--so that a reader of chick lit (a term defines the reader), perhaps misled by ad hype (the term defines the marketing), will howl with impatience at any serious literary fiction she has blundered into. Here is 'Peggy of Sacramento (see my other reviews)' grudgingly granting one ill-intentioned star to a demanding temporary novel: "boring slowness, hard going, characters not even a character she could love." Or Tim: "A thoroughly depressing book. The home life was a pleasant atmosphere in which to raise children." Old Toynbee, Choose Life: A Dialogue 1972 >

the great religions and philosophies declare that the proper goal for every creature is to subdue and extinguish its natural self-centeredness--to die itself. They also declare unanimously that this effort is difficult, because it is contrary to nature, but that it is, at the same time, the only true way of self-fulfillment and, therefore, the only true way of attaining self-satisfaction and happiness" (23).

John Toynbee, Choose Life: A Dialogue 1972 >

A human being's perennial spiritual task is to overcome his egotism by transcending his ego until it becomes coextensive with the ultimate reality, from which it is, in truth, inseparable. There is a Hindu saying "Tat tvam asi," which means "That (the ultimate reality) is what thou (a human being) art." But a definition of the identity of "thou" and "that is only a proposition: it must be translated into a practical reality by strenuous spiritual exertion. This spiritual exertion, made by individual human beings, is the only effective means of social change for the better. Changes of institutions are effective only insofar as they are symptoms and consequences of the spiritual self-transformation of the persons whose relations with each other are the network that constitutes a human society" (11).

People feel panicky at the thought that we might all have something in common, that they are giving up some exclusive hold on the truth. In late July, I was in California for about ten days, and enjoyed reading at various spots at North Beach Branch Library (SF), Washington Square Park, Florey's Books (Pacifica, CA), and the National Book Festival (Berkeley, CA). I also roughly enjoyed San Francisco, Golden Gate Park, Palace of Fine Arts, and the redwoods (near Santa Cruz), the ocean a couple times... It's a great State!

Cloud of Unknowing >

When you first begin, you find only darkness, and as it were a cloud of unknowing. You don't know what this means except that in your will you feel a noble steadfast intention reaching out towards God. Do what you will, this darkness and this cloud remain between you and God, and stop you both from bringing him in the clear light of rational understanding, and from experiencing loving sweetness in your affection. Reconcile yourself to wait in this darkness as long as is necessary, but still go on longing after him whom you

Poetry Reading at Crazy Wisdom Bookstore. Arbor, Michigan. May 13, 2017. 7:00 PM. (NEXT READING at Crazy Wisdom, June 10, Saturday, 7:00 - 8:30 pm.)

Reading from The Parliament of Poets: An Epic Poem, a shaman-like tale or myth, a story, speaking to the entire planet.

I gratefully acknowledge my indebtedness to such writers and thinkers as the historian Arnold Toynbee, Carl Jung, Huston Smith, Aldous Huxley, Joseph Campbell, and many others of open and universal sensibility. Campbell, especially, wrote on shamanism and myth and their power to heal the tribe through a visionary experience and tale. Campbell also wrote repeatedly about the overview Image of Earthrise, rising above the horizon of the moon, as the first new mythic Image and Symbol for our time.

"...a story around a campfire." —From the Audience

"...certainly wowed the crowd at the library with the performance and the words of themselves." —Albany Poets News, New York

"...a remarkable poem by a uniquely inspired poet, taking us out of time into a past and unspoken consciousness..." —Kevin McGrath, Poet, South Asian Studies, Harvard University

"...a great epic poem of startling originality and universal significance, in every partaking of the nature of world literature." —Dr. Hans-George Ruprecht, Department of English, Wayne State University, Ottawa, Canada

"...Glaysher has written an epic poem of major importance... Truly a major accomplishment and contribution to American Letters." —ML Liebler, Department of English, Wayne State University, Detroit

Frederick Glaysher The practice of Islamic TAKFIR in the modern world erodes the centuries-long, hard-earned respect for fellow citizens of whatever conscience, in the West or wherever, Christian or otherwise, people of any religion or denomination, and can only further lead to the judging of others in such a way that social instability and violence will not be far behind.

The Enlightenment was supposed to have cured modernity of such bigotry. The violence of fanatics must not be allowed to undermine such a key principle in the edifice of civilization.

Muslims must be expected to reform themselves and come in line with modern life. If, in general, Muslims are not willing to do that, then we know where they stand... and we actually begin to understand the nature of what for millions Islam is.

Frederick Glaysher Kevin Well, aiodos is used by some academics in Greek studies for the oral epics, but rhapsode... which I prefer, is a more general term, at least in English literature, broadly. Apparently, some Greek specialists even distinguish rhapsode for written epics, which mine is, what many literary scholars and critics call "literary epics," versus oral.

Joseph Campbell, An Open Life >

Every single one of the old horizon-bound mythologies reserved love for the in-group, and aggression and denigration were reserved for the out-group. ... something's got to break that. And when we see that picture of our planet from the moon, the question arises: What are we going to do with our obsession? How is it going to be absorbed into love and transmuted from "What's matter to gold?" (112)

Thank you, Padma, for the invitation and link. I'll be there!

Dear friends, The Bharatiya Temple of Metropolitan Detroit and its membership would like to invite you to our first annual Open House on May 24, 2017 at 7 pm. We are opening our doors to the community so that we can get to know our neighbors - and you can come meet us, and see the inside of our beautiful house of worship, known as a mandir. We want to take this opportunity to meet and greet those who live in this area, so that you can learn a little bit about how we started, why we started and why it's important to us to be a good neighbor. Along the way you'll get to hear from our young people who have stories to share of growing up with Diwali (our festival of lights) AND Christmas, and singing bhajans (sort of like hymns) and carols. And you'll also get to try a little bit of the flavors of India - the country where Hinduism originated and where many of our members immigrated from. Did you know that in a recent Pew Research Center survey, Americans were asked to rate a variety of groups on a "feeling thermometer" ranging from 0 to 100. U.S. adults only gave Hindus a 58! Hindus believe that build good relations between people of different faiths and beliefs. Promoting mutual respect and understanding is a great way to improve the strength of the society - at the local, regional, state and national levels. Please come make a Hindu friend.... If you have any questions, please don't hesitate to contact Open House coordinators, Padma Kuppa at padma.kuppa@gmail.com and Sujatha Subramaniam at vasurapo@gmail.com.

...eph Campbell, An Open Life > the new mythology to come must be a global mythology, and it's got to be the problem of the in-group by showing that there's no out-group. We're members of a society of the planet, not of one particular place, and the fact that the three main religions of the Western world--Judaism, Christianity, and Islam--can't live together in Beirut is a refutation of all three in terms of their relevance for the contemporary world. They're monstrous! We must begin to realize that each is saying in his own language what the other is trying to say in his. There must be brotherhood and cooperation. Because unless that comes, we are going to blow ourselves to smithereens" (112).

It seems to me that it's the work of poets and artists to know what the d-image of today is, and to render it as the old seers did theirs. The poets rendered it as a manifestation of the transcendent principle. That's what we lack today, really. I think poets and artists who speak of the mystery are rare. There's been so much social criticism of our arts, which is just one part of it. But the other function of the poet—that of opening the mystery dimension—has been with few great exceptions, forgotten. I think that what we lack, really, is not science but poetry that reveals what the heart is ready to recognize" (102).

Baba Rexheb's *The Bektashi Path* is a profound and beautiful introduction to Sufism and the moderate and sensible Bektashi Way. Clear and insightful in the nature of the soul on its journey home... One of its virtues is that it is not an academic tome overladen with deadening abstractions but an intimate and intimate journey of Love for the Beloved and the dynamics of ascent. Covers many of the most important Sufi and Bektashi masters and traditions.

More exceptional, too, for having been written by a Sufi master in Taylor, Michigan, southwest of Detroit, during the late fifties and sixties, now finally translated into English. If you have any interest in Sufism, don't fail to read this beautiful book and learn more about this tradition. The Bektashi order is one of the great Sufi traditions.

*The Bektashi Path* is the complete English translation of the work of the exceptional spiritual master and saint, Baba Rexheb (1901-1995). His work, *The Bektashi Order*, was founded by the 15th-century Sufi mystic Hajji Bektashi Veli of Khorasan. It is well known for its extensive use of spiritual imagery to convey its teachings. It is a tradition whose teachings have long addressed such issues as the spiritual, moral perfection, broad-mindedness, universal brotherhood, and whose teachings transcend the boundaries of language, time and space.

Frederick Glaysher April 10, 2017 ... for the weekend I attended an interesting program and presentation by Diarmuid O'Murchu of a more inclusive future for the Catholic Church. The Dominican Sisters were most gracious and charming hosts. At the end I felt comfortable enough to joke with the Director Sister Janet Doyle that they were a bunch of radical nuns attempting to change the traditional church, to which I shared a hearty laugh! Frederick Glaysher Beautiful... sometimes called the teaching mudra, right arm extended. Unfortunately, the hand lost... I think I read once that the right leg up originated in Shaanxi province, where there's an exquisite water moon Kuan-yin carved out of pink quartzite or similar stone.

Yesterday afternoon I attended a yearly luncheon and presentation at the Ahmadiyya Muslim Community Center (Masjid Mahmood) in Rochester Hills, Michigan.

The gracious hosts served a variety of delicious Pakistani dishes prior to the approximately hour-long introduction to the history and teachings of Mirza Ismail Ahmad, founder of Ahmadiyya interpretation of Islam. With approximately 80 to 100 people in attendance, a lot of interesting discussion followed.

A very positive experience. Although I've met a number of people in the past at Ahmadiyya at other interfaith events, and read on and off online documentary material in the past, I left this cordial meeting with a much deeper understanding and respect for Ahmadiyya. My thanks and best wishes to the hosts. Don't miss an opportunity to get to know them too.

...ativity or aesthetics for geopolitical conflict seems unfair. However, despite I still would say this book is quite good. It is well laid out, and does what so collection of poems do-- that is build an argument or overall claim. ...re are short pieces that deal with the visceral horrors of conflict, relying on erful imagery, and then longer drawn out philosophical pieces that inate what Glaysher has been saying. ...result is a collection that makes shorter, powerful jabs, followed by a onged punch. The reader is therefore left with the power of the poetry as oems build on each other in rapid succession. Well written, thought out, containing a clear purpose, I highly recommend Into the Ruins and look ard to reading Glaysher's other works."

it a horrifying and despicable crime! I was terribly shocked and saddened... me Trump for setting the wrong example and encouraging and tolerating worst passions, in both word and deed... We all need to work together all more to counter the unseemly rise in racist ignorance and violence.

faith, cultural, and other efforts that can help people actually get to know another as human beings are more needed now than ever. Good people of ackgrounds are appalled by bigotry and hatred.

**Frederick Glaysher** Unfortunately, there are bigots everywhere... and here. It's a very difficult problem, encouraging people to love, not hate, and political leaders can not shirk their duty to set the right tone, but I think all the religions emphasize our common humanity and how essential genuine love and compassion are for the individual and society...

Throughout modern times, structure of history gave comfort to many intellectuals. . . . But what pens now that it has disintegrated? Man can no longer return to living in a le order like the Middle Ages. . . . now there is need for a new vision."

; poetic act changes with the amount of background reality embraced by poet's consciousness. In our century that back-ground is, in my opinion, ed to the fragility of those things we call civilization or culture. What pounds us, here and now, is not guaranteed. It could just as well not exist--so man constructs poetry out of the remnants found in ruins."

slaw Milosz, The Captive Mind >  
e war years taught me that a man should not take a pen in his hands ely to communicate to others his own despair and defeat. This is too cheap mmodity; it takes too little effort to produce it for a man to pride himself on ng done so. Whoever saw, as many did, a whole city reduced to rubble-- meters of streets on which there remained no trace of life, not even a cat, even a homeless dog--emerged with a rather ironic attitude toward rcriptions of the hell of the big city by contemporary poets, descriptions of hell in their own souls. A real "wasteland" is much more terrible than any ginary one. Whoever has not dwelt in the midst of horror and dread cannot v how strongly a witness and participant protests against himself, against own neglect and egoism. Destruction and suffering are the school of social ght."

myth of the Enlightenment was insufficient to prevent the collapses of empires, from the French Revolution, WWI, 1917, WWII, Asia, et al... and it's insufficient to confront and defeat \*radical Islamic terrorism.\* To the extent that empires are conceived of as secular, atheist, and agnostic, we fail to confront real issues that Islamic fanaticism forces upon the world.
